Research Profile

Graduate in Epidemiology and Biomedical Data Science with a foundation in Statistics. 4+ years of applied experience in statistical research and health data management across international settings. Six peer-reviewed publications in high-impact journals spanning cardiovascular epidemiology, maternal health, and machine learning applications in public health.

Education

MHSc in Epidemiology and Biomedical Data Science · University of Oulu, Finland 09/2024 – 06/2026

- Thesis: *Environmental Inequality and Mental Health: A Geospatial Analysis in the Northern Finland Birth Cohort 1966*

BSc in Statistics · Khulna University, Bangladesh

02/2016 – 03/2020

- Thesis: *Factors Associated with Age of Mother at First Birth in Albania: Application of Quantile Regression Model*

Research & Work Experience

Data Management Officer · icddr,b, Dhaka, Bangladesh

07/2023 – 08/2024

- Managed data for a mixed-methods healthcare study ensuring ethical compliance and participant confidentiality
- Designed and field-tested data collection instruments to capture sensitive behavioral and clinical data
- Cleaned and validated 458 survey records using R, SPSS, and Epi Info
- Developed R scripts for tabulation and visualization; prepared datasets for statistical analysis (logistic regression) in collaboration with senior statisticians
- Designed and conducted workshops on sample size determination, quantile regression, and qualitative data analysis using ATLAS.ti

Data Analyst · Twinbit Limited, Dhaka, Bangladesh

03/2021 – 07/2023

- Analyzed app growth metrics and developed App Store Optimization (ASO) strategies, boosting platform visibility across multiple markets
- Conducted competitive analysis and applied statistical techniques to assess data quality and interpret complex datasets
- Facilitated onboarding workshops on analytics dashboards and ASO tools for new team members

Research Assistant · Khulna University, Bangladesh

07/2019 – 06/2020

- Analyzed DHS data using SPSS and R, contributing to 2 peer-reviewed publications on maternal and women's health
- Applied quantile regression to identify determinants of health disparities

Methods & Technical Skills

Programming	R, Python
Statistical software	SPSS, Stata, Epi Info, MPlus, ATLAS.ti, Matlab
Visualization & GIS	QGIS, Power BI
Office & productivity	MS Word, Excel, PowerPoint; L ^A T _E X

Publications

- Co-author (under review), *Role of Sexually Transmitted Infections as a Mediator between Chemsex and Sexual dysfunction among Men who have Sex with Men in Dhaka, Bangladesh*, AIDS and Behavior, 2026.
- Co-author, *Prevalence and determinants of hypertension in South-Asian Urban Communities*, Journal of Human Hypertension, 2024.
- Co-author, *A comparative study of machine learning algorithms for predicting domestic violence vulnerability*, BMC Women's Health, 2023.
- Co-author, *Implementation of jute-based nose holder in surgical masks to reduce plastic contamination*, Heliyon, 2023.
- Co-author, *Trends and patterns of inequalities in using facility delivery among reproductive-age women*, BMJ Open, 2022.
- Co-author, *Risk factors associated with anemia among women of reproductive age (15–49) in Albania: A quantile regression analysis*, Clinical Epidemiology and Global Health, 2022.
- Co-author, *Factors associated with age of mother at first birth in Albania: application of quantile regression model*, Heliyon, 2021.

Conferences & Presentations

- Author (Poster), *The 6th Paula Rantakallio Symposium on Birth Cohorts and Longitudinal Studies* (2026) — Environmental Inequality and Mental Health
- Co-author (Poster), *25th International AIDS Conference* (2024) — STI diagnosis discrepancies among female sex workers in Bangladesh
- Co-author (Poster), *International Conference on STEM & 4th Industrial Revolution* (2022) — Depression and stress among students during COVID-19

Teaching & Facilitation

Guest Lecturer · University of Oulu, Finland

April 2025

- Delivered a lecture on *An Overview of Breast Cancer* to medical faculty students; independently designed the presentation incorporating epidemiological data and interactive discussion elements

Workshop Facilitator · icddr,b, Dhaka, Bangladesh

07/2023 – 08/2024

- Designed and conducted sessions on sample size determination in qualitative research, application of quantile regression in public health, and qualitative data analysis using ATLAS.ti

Volunteering & Community Engagement

- Executive Member, Oulun Arctic Tigers Ry, Oulu, Finland (01/2026 – present)
- Volunteer, European Public Health Conference, Helsinki (11/2025)
- Volunteer, Oulu Cultural Capital 2026 (02/2025 – present)
- Volunteer, Colorful Restaurant, Multicultural Centre Villa Victor, Oulu (06/2025)
- Organizer, Pitha Utshob — Bangladeshi Cultural Festival, Oulu (01/2026)
